# Financing Your Venture

Africa tech is on the rise and an increasing number of funds are dedicated to financing ventures across Africa. However, practices have proved to be very different between investors, lacking transparency, creating frustrations, and a waste of time. As a collective, we are committed to creating common practices and tools.

## State of Tech in Africa Dashboards

Explore data-driven dashboards that show where capital is flowing, sector trends, and emerging opportunities, enabling investors to identify high-potential startups and shifts in the African tech landscape early.

The screenshot shows a dashboard with a dark theme. The left side displays key metrics: Total Deals (4,329), Capital Raised (\$20.27B, Excludes 212 exits), Unique Startups (2,576), and Avg Deal Size (\$5.2M). The right side features an "AI Analyst" section with filters for "Andela Funding", "DRC 2024", "Fintech", and "Growth". Below the filters is a "Welcome to AI-Powered Analysis!" message and a list of example queries. At the bottom, there is a "Trends & Momentum" section and a "SEND" button.
